

SHINING: SPREAD HIGH NATIONAL INTERNATIONAL IDEOLOGIES NAVIGATE AND GATHER

Shining is an amazing adjective which suggests light, brightness, sun. Since prehistoric times, light has always been the best company for human beings. Fire, in fact, helped ancient populations to keep away the beasts. It also allowed them to prepare their daily nourishment.

During the Middle-Ages and in the following centuries candles were used either to keep the right track by lightening paths or to have a good knowledge, by lightening pages of the books. The path and the book present some similarity. In fact, the path allows you to safely reach your home, reading increases your knowledge, culture and finally your welfare.

At present, light continues to be an essential part of human beings' life and helps to daily read letters, messages, papers and view photos. For instance, the lighting of a computer, smartphone, tablet allows people to have and share information around the world.

There are several means to increase our culture: ideas, experiences, moments, culture, images, reading, travelling improve our life knowledge and contribute to increase our welfare.

Sometimes an image expresses more ideas and ideologies than reading a page of a book.

Shining could also be considered an acronym of a sentence which reflects the meaning of the adjective.
